BSR Conference 2018
Sustainability Report
Overview

ORGANIZATION MISSION

BSR is a global nonprofit organization that works with its network of more than 250 member companies and other partners to build a just and sustainable world. The organization’s mission is to work with business to create a just and sustainable world. BSR envisions a world in which everyone can lead a prosperous and dignified life within the boundaries of the Earth’s natural resources.

CONFERENCE DESCRIPTION

The annual BSR Conference is one of the longest-running and most well-regarded business sustainability events. We provide a space for thought-provoking conversations, where we work together to identify solutions to our most complex sustainability challenges. We convene more than 800 participants from around the world, including senior executives from Fortune 500 companies, entrepreneurs, foundations, nonprofit organizations, and governments. Be a part of it and help your company define its own blueprint for sustainability.
ORGANIZATION MISSION

BSR is a global nonprofit organization that works with its network of more than 250 member companies and other partners to build a just and sustainable world. The organization's mission is to work with business to create a just and sustainable world. BSR envisions a world in which everyone can lead a prosperous and dignified life within the boundaries of the Earth's natural resources.

CONFERENCE DESCRIPTION

The BSR Conference is one of the most important annual gatherings dedicated to finding solutions to our most pressing global challenges. Every year, nearly 700 sustainable business experts from Fortune 500 companies, as well as leading foundations, nonprofit organizations, and government, gather for unparalleled networking experiences, powerful plenary addresses and breakout sessions, and interactive professional development opportunities.

ATTENDEE PROFILE

CSR professionals from Fortune 100 companies, consultants, and practitioners of CSR strategy. The majority of attendees are from North America however the conference typically attracts 20% of attendees from outside North America.

Sustainability Achievements

There are many areas that contribute to an event’s overall sustainability, ranging from venue, accommodations, and food & beverage, to signage, collateral, and even marketing & communications. Greening an event involves a concerted effort across vendors and supply chains to help transform an industry. We are proud of our team’s work to advance the following sustainability initiatives.
WASTE MINIMIZATION AND DIVERSION
Signage and conference materials were produced on 100% post consumer recycle content substrate. No disposable serviceware and no bottled water.

LOCAL AND HEALTHY CATERING
MeetGreen worked with our client and the hotel catering staff to devise creative menus that showcased local brands for exciting surprises. Healthy options were prioritized for snacks and grab and go food and beverage.

MINDFUL SPONSORSHIP FULFILLMENT
On site sponsor benefits fulfillment can often translate to event waste if not properly managed. BSR designed all fulfillment packages to leverage recyclable signs and feature area build outs using rented furniture. Brand alignment also came through carbon offset underwriting, support of healthy and organic catering choices, and topical features.
SUMMARY

For over 20 years BSR has committed to event sustainability with the annual conference and 2018 was no different. A continued effort to minimize waste is a hallmark of the event. Conference proceedings and handouts have been eliminated since 2006. Signage is produced on 100% recyclable substrate and catering waste 100% diverted from landfill.

The optics of catering choices are also very important to the BSR Conference. Emphasizing exciting local businesses such as Patsy’s Pizza, Joe’s Coffee, Ferrara, and local breweries and wineries not only infused energy into the menu, the conference prioritized local while keeping costs down. 100% elimination of disposable serviceware combined with condiments only served in bulk and a kitchen that composts meant back of house packaging was the only item going to the landfill.
Sustainability Achievements

- Low impact paper was implemented including:
  - 100% of signs using 10mm re-board
  - Name badges printed on 100% recycle content paper
- Pre conference printed promotions were entirely digital. All marketing was completed electronically via eblasts, blog posts, and other social media channels.
- Conference office printer used 100% recycle content paper. Staff were asked to make only essential copies.
- The 6th year of using a conference app and thereby eliminating a printed program.
- Session notes were posted on BSR website.
- No name badge holder, greatly reduced material needed for name badge.
- Lanyards made of 100% recycle content plastic.
- 216 badge lanyards were recycled.
- Sustainability commitment was communicated to attendees and other stakeholders via conference website, blog posts, and informational slides during meal functions.
- Plenary sessions streamed live thereby reaching a large audience using a smaller carbon footprint.

- MeetGreen sustainable practice surveys were sent to core event suppliers: Venue, Accommodations, Catering, and Sign vendors.

- The conference venue recycles glass, paper, plastic, and cardboard.

- Meals included sustainable food options: local, seasonal, organic, fairly-traded, sustainably harvested, or ethically produced.

- 100% of signs were sourced within 150 miles of the meeting venue.

- 95% rented and reusable furniture supported branded areas. The purchased furniture was donated post conference.

- Sponsor installations incorporated sustainability in theme, activities and branded and messaging.
From Local to Global

In 2015 the United Nations defined a collection of 17 Sustainable Development Goals (SDGs) designed to achieve the following targeted goals by 2030: ending poverty, promoting prosperity, well-being for all, and protecting the planet. One very powerful visual is seeing how the sustainability actions taken at BSR Conference link closely to the global initiatives outlined by the UN SDGs.

Event Scoring

The MeetGreen® Calculator 2.0 is a comprehensive tool available for benchmarking the sustainable elements of events. Using the Calculator allows BSR to capture valuable information throughout the event planning process in order to make it easy to see where successes lay and where improvements can be made.

Those events that score highly are run by organizers who not only request sustainable practices, but also ensure that these requests are implemented through systemic processes, that procedures are tracked and that a high level of performance is achieved.

Sustainability Opportunities

Event sustainability is inherently a long-term process. As such, it is an opportunity to innovate, and evolve at a pace that is congruent with an organization’s resources and roadmap. The following pages offer a combination of practical next steps as well as some ambitious targets to help frame future event sustainability planning.
Consider migrating the conference to a circular economy model for assets such as signage. With the advent of recent challenges to waste diversion streams, continue to make a concerted effort to minimize waste rather than recycle materials.

Commit to greater attendee engagement by consistently communicating your efforts. Keep a green tagline at bottom of any eblasts or staff signature lines leading up to the event.

At the outset of the 2019 conference, identify 3 new goals and desired outcomes that relate to sustainability.

Draft a comprehensive event sustainability policy to ensure that green practices are incorporated into all meetings. This process should be finalized and communicated to all stakeholders.

Confirm event-specific priorities and measurement targets. This could be a first action-step for the sustainable event team.

Establish areas of responsibility including staff and vendors and determine how to communicate this information to all stakeholders.

Communicate opportunities and impacts. Include a strategy for pre-, during and post-event outreach to attendees and other stakeholders.
Congratulations

on a successful event using the Earth’s resources wisely!
Special Thanks

We are grateful for the individuals and companies that contributed to BSR Conference sustainability, including:

Pamela Schwartz, BSR Conference Director
Grand Hyatt New York, Wan Yi Tang, Convention Services Manager
Heritage Printing, James Zambrano
Parthen Meeting Services
Ariston Floral Boutique
BSR Conference Sponsors

BSR Conference attendees and BSR Staff.

We appreciate everyone’s efforts!
