

# 5 steps for sustainable supply chains

## 1. Policy

Develop a policy with a vision statement, identifies issues, scope, objectives and reporting parameters.

## 2. Communicate

Share your policy with suppliers early and often, including in RFPs. Use sustainability as a decision point.

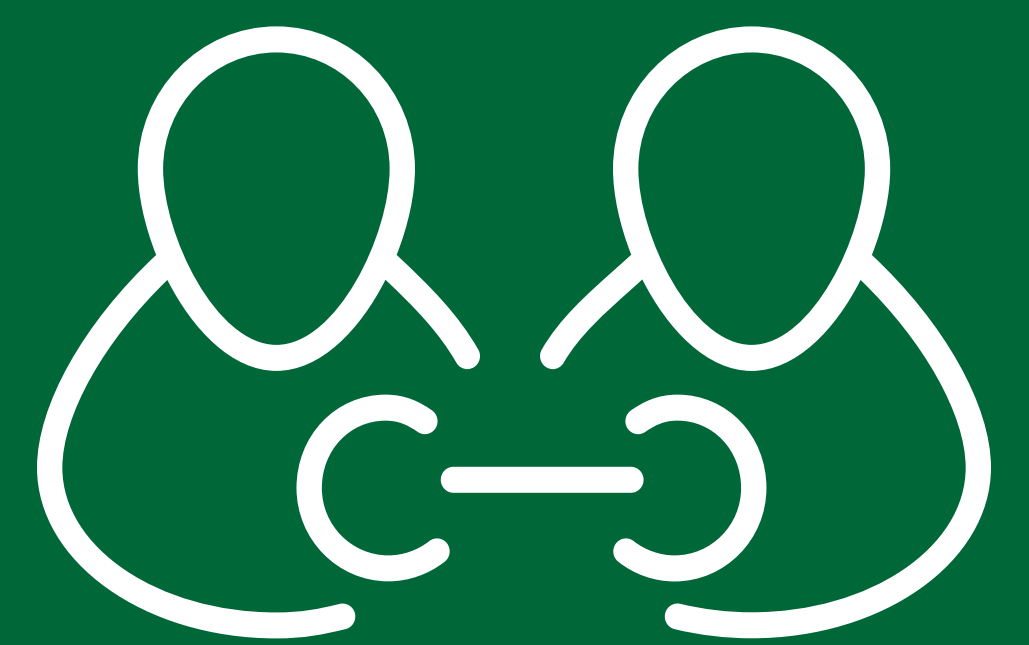

## 3. Negotiate & Contract

Discuss and negotiate sustainability practices into agreements. Remember to "trust but verify."

## 4. Enroll Suppliers

Meet regularly with your suppliers to engage on sustainability, and collaborate for the best outcomes.

## 5. Drive with Data

With your suppliers, measure, debrief and report on your sustainability achievements for your event.
