

# 2022 A YEAR IN REVIEW

MeetGreen expanded its reach in 2022 with **136,089** attendees experiencing sustainable initiatives guided by MeetGreen, impacting their onsite time and having a ripple effect when they returned to their organizations & communities.

## SINCE 2018 MEETGREEN EVENTS REQUESTING CARBON ANALYSIS HAVE GROWN BY

# 500%

## RENEWABLE ENERGY

MeetGreen events leveraged an estimated 2,056,318 kWh of renewable energy in 2022.

That is enough to power 173 homes' electricity use for an entire year! (EPA)

## EVENT FOOD CARBON CALCULATOR

In partnership with Clear Current Consulting, MeetGreen launched the [Event Food Carbon Calculator](#) for those looking to reduce the carbon footprint of their event menus.

## EVENT WASTE DIVERSION RATE

During 3 days of onsite MeetGreen 2022 staff retreat activities in Netarts, OR, 93% of event waste was diverted from landfill into donation, compost, and recycling channels. This was 62% better than the regional average and met the threshold for a Zero Waste Event!
