

ROSCon 2024 Sustainability Report

ROSCon 2024 was held in Odense, Denmark. The venue/hotel has a lengthy sustainable policy that is written in Danish. The venue and host hotel were located next door allowing attendees to walk.

Event Sustainability Highlights

ROSCon 2024 showed an improvement from the 2023 event. The venue played a big part of this. Comwell Hotels are renowned for their extensive work within sustainability. The group's hotels are Green Key labelled, in addition to the organic cuisine label.

Successes in 2024

- **Sustainable food** The venue confirmed the food choices 1 week prior to the event as they served food that was local and fresh. There were several food options that appeared to have reused food from previous dishes.
- **Meals** The venue provided reusable service ware for the meals which saved in waste. They also provided water, drinks, and most of the condiments in bulk containers.
- **Sustainability** The group's hotels are Green Key labeled, in addition to the organic cuisine label.

Event Features

- 2 days of two session tracks
- Full and half day workshops
- 2 tours: New Universal Robots and MiR Headquarters facility
- 2 city walking tours
- 2 VIP events
- Sponsor and exhibits in 3 areas

Did You Know?

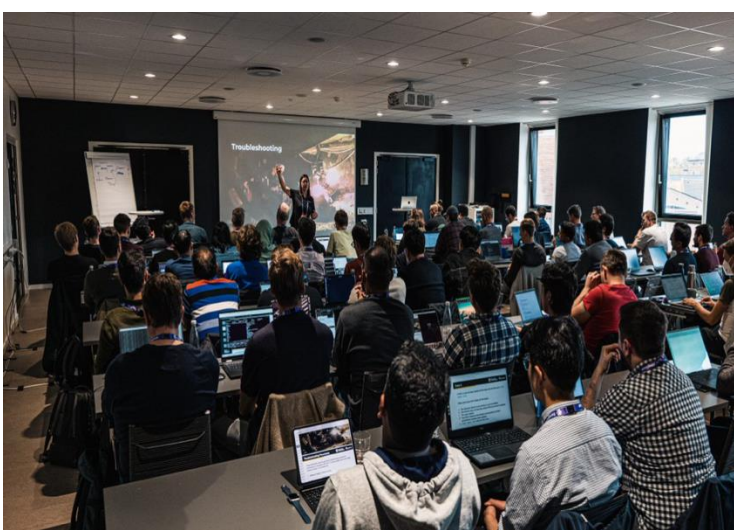

ROSCon 2024 Conference MeetGreen® Calculator 2.0 score was in the Visionary category. This shows an increase from the 2023 conference. The city is working towards 100% renewable electricity and heating by 2030.

The Odeon, Odense, Denmark

Recommendations for 2025

- **Food Waste** Work with venue to ensure that nonperishable food from breakfast and lunch are left out for guests to enjoy during snack breaks. This could also allow for a cost savings on the amount of break food.
- **Plant Based Meal** Consider a plant-based meal as one of the options for 2025.
