

# 25 YEARS OF IMPACT BY THE NUMBERS

Since 1994, MeetGreen has worked with progressive global organizations to integrate leading event sustainability practices and produce conferences and events that deliver targeted business results.

Rooted in our core company values and principles of conduct, we are pleased to share the following highlights from our cumulative impact and legacy:

## RECYCLED

Over 4 million kg of event waste recycled.

That's enough to fill 7,789 dump trucks!

## COMPOSTED

More than 1.5 million kg of event waste composted.

Enough to take 308 cars off the road for a year!

## DONATED

436,000 kg of event material donated.

Equivalent to 33 city buses!

## CO2 OFFSET

102+ million kg of event carbon emissions offset.

The amount of carbon sequestered by 133,000 acres of US forests, or 158 Central Parks, in a year!

## REDUCED AIR TRAVEL

Since 2009, MeetGreen has travelled 1.2 million fewer km against the baseline, that's like consuming 2,800 fewer barrels of oil!
