

MAY 23-25

IN-PERSON | THE WESTIN PITTSBURGH

100% REUSABLE SERVICE WARE

All meals used reusable service ware throughout the event.

An estimated 4,020 single-use plastic water bottles were saved via the use of pitchers and reusable cups onsite.

PLANT-BASED MEALS BY DEFAULT

This effort significantly reduced the greenhouse gas emissions for the event, saving approximately 3,045 kgs of CO₂e.

That savings is equivalent to fully charging nearly 370,000 smartphones.

OFFSETTING CARBON EMISSIONS

390 metric tons of CO₂e have been offset via support of Lake Wind Project through Carbonfund.org

That's comparable to taking a car off the road for almost 1,000,000 miles! The distance of 40 times around the Earth!

VIRTUAL ENGAGEMENT

The event achieved a reduction of 18,206 kg CO₂e.

That is an amount equivalent to burning 1,837 gallons of diesel fuel!

WASTE REDUCTION

CleanMed saved 3,321 kilograms of waste through its sustainability efforts.

That is equivalent to the weight of 23 baby elephants!
