

January 28-31 | Wynn Las Vegas

Acumatica Summit 2024

FURNITURE & DECOR REUSE

100% of all Acumatica Summit assets, furniture, and décor were owned, rented, and stored for reuse.

CARPET

Carpet within the venue was utilized rather than bringing in new or reused carpet, saving an estimated 75,540 sq ft of carpet from being transported and potentially sent to landfill.

That's the weight of 5 large semi-trucks!

NO SINGLE-USE WATER BOTTLES

Water refill stations were provided instead of single use plastic bottles, keeping potentially 15,438 water bottles from being wasted.

DONATIONS

Over 350 kgs of signage was donated to Las Vegas Livestock to create shade structures for their farm animals.

That's the weight of 5 small pigs!

WASTE REDUCTION

Since 2021, Acumatica Summit has saved an estimated 12,586 kgs of landfill waste through its reusable service ware efforts.
